Re: Review by NH Natural Heritage Bureau of request dated 2019-02-21

NHB File ID: 3147

Town: Pelham, NH

Project type: Landowner Request

Location: M9, Lot 2; M 9, Lot 9-9-5 (Town of Pelham - Moeckel Road)

I have searched our database for records of rare species and exemplary natural communities on the property(s) identified in your request. Our database includes known records for species officially listed as Threatened or Endangered by either the state of New Hampshire or the federal government, as well as species and natural communities judged by experts to be at risk in New Hampshire but not yet formally listed.

NHB records on the property(s): **None**

NHB records within one mile of the property(s):

Plant species	Last Reported	Listing Status		Conservation Rank	
		Federal	NH	Global	State
River Birch (<i>Betula nigra</i>)	2017	--	T	G5	S2
bird-foot violet (<i>Viola pedata</i>)	2017	--	T	G5	S2
brown bog sedge (<i>Carex buxbaumii</i>)	2017	--	E	G5	S1
Vertebrate species (For more information, contact Kim Tuttle, NH F&G at 271-6544)		Federal	NH	Global	State
Spotted Turtle (<i>Clemmys guttata</i>)	2011	--	T	G5	S2
Blanding's Turtle (<i>Emydoidea blandingii</i>)	2002	--	E	G4	S1

Listing codes: T = Threatened, E = Endangered SC = Special Concern

Rank prefix: G = Global, S = State, T = Global or state rank for a sub-species or variety (taxon)

Rank suffix: 1-5 = Most (1) to least (5) imperiled. "--", U, NR = Not ranked, B = Breeding population, N = Non-breeding, H = Historical, X = Extirpated.

A negative result (no record in our database) does not mean that no rare species are present. Our data can only tell you of known occurrences, based on information

NOTE: This review *cannot* be used to satisfy a permit or other regulatory requirement to check for rare species or habitats that could be affected by a proposed project, since it provides detailed information only for records actually on the property.

gathered by qualified biologists and reported to our office. However, many areas have never been surveyed, or have only been surveyed for certain species. An on-site survey would provide better information on what species and communities are indeed present.

NOTE: This review *cannot* be used to satisfy a permit or other regulatory requirement to check for rare species or habitats that could be affected by a proposed project, since it provides detailed information only for records actually on the property.

Natural Heritage Bureau Landowner Report

Project ID Number: 3147

NOTE: Any rare species and/or exemplary natural communities in this area are not shown unless they occur, at least in part, within the property bounds.

Symbol	Category	# of Records
	Property Bounds	
	Plant Occurrence:	0
	Animal Occurrence:	0
	Natural Community:	0
	Ecological System:	0
