

## **CONSERVATION COMMISSION GUIDELINES REGARDING SIGNAGE**

1. The size and design of the sign as shown. (Black outline indicates the edge of sign)
2. Signs are to be printed on a white background with reverse lettering in forest green. 3/8 Holes are to be positioned as indicated to allow mounting hardware (nails or bolts).
3. Signs are to be printed on a non-rusting metal with non-peeling paint.
4. Signs are to be placed on a non-deteriorating post and set permanently in the ground at the perimeter of the district, or tacked to a healthy, living tree on the perimeter of the district at a height of no more than eight (8) to ten (10) feet from the ground.
